

What is a Group Purchasing Organization (GPO)?

A Group Purchasing Organization (GPO) leverages the buying power of its hundreds of members as a force multiplier to deliver supply chain savings. GPOs can be a 'sourcing accelerator' with their ready-to-go contracts and GPO-related savings can often be a funding mechanism for other initiatives.

Who is Procure Analytics?

Procure Analytics is the only 'GPO+' category management solution for indirect spend with deep expertise in MRO, Packaging, and Tail Spend. Our members leverage \$2.5B+ in spend to drive value not easily available in direct agreements or through RFPs.
